

Health related eligibility

There is new **Government grant scheme with £4 billion** of grant funding available for UK households. The ECO4 grant scheme targets inefficient properties where households need assistance and this guide explains which households are eligible through having a health condition. The least efficient properties get the most funding and the grants are very generous for the properties that qualify (worth **£7000 to £20000+** per property).

ELIGIBILITY: HEALTH RELATED

If you have a health related condition you can apply for grants.

HOUSEHOLD ELIGIBILITY

Health-related eligibility

Households that have health conditions made worse by living in a cold home are eligible for grants.

These health conditions may fall under one of the umbrella conditions:

- A cardiovascular condition,
- A respiratory disease,
- Limited mobility, or
- Immunosuppression.

The health condition will need to be verified by either:

- a general medical practitioner
- a Health Board in Scotland
- a Local Health Board in Wales
- an NHS foundation trust
- by an NHS trust

There are no income-requirements through this route to qualify. A medical practitioner will need to [complete a referral form](#) to confirm eligibility.

Grants are very generous with a funding of £4 billion available to improve the least efficient UK homes.

Applications through this route require the council to publish a statement of intent and issue a declaration

PROPERTY ELIGIBILITY

Property Requirements

Properties must also be eligible for funding.

- ☑ The property must have an EPC Band of D, E, F or G **and** be improved to a minimum of a D or C. If you've had work done since the EPC date, that could impact eligibility.

- ☑ In the majority of cases insulation will not be enough to achieve the minimum band improvement so most applications will require a heating upgrade to reach the 'Full Project Score'
- ☑ The property must be insulated unless there is an exemption
- ☑ There must be 'adequate' ventilation at the property

FREE GRANT CHECKER

All it takes is 30 seconds of your time.
You could get grants worth £20,000+
